A. Was not aware of the Coalition's efforts B. Monthly newsletter C. Website/Social Media D. Radio	E. Oahe TV F. Schools G. Special Events

Coffee Cup Analogy

A group of alumni, highly established in their careers, got together to visit their old university lecturer. Conversation soon turned into complaints about stress in work and life.

Offering his guests coffee, the lecturer went to the kitchen and returned with a large pot of coffee and an assortment of cups: porcelain, plastic, glass, some plain-looking and some expensive and exquisite, telling them to help themselves to hot coffee.

When all the students had a cup of coffee in hand, the lecturer said: "If you noticed, all the nice-looking, expensive cups were taken up, leaving behind the plain and cheap ones. While it is normal for you to want only the best for yourselves, that is the source of your problems and stress. What all of you really wanted was coffee, not the cup, but you consciously went for the better cups and are eyeing each other's cups."

"Now, if Life is coffee, then the jobs, money and position in society are the cups. They are just tools to hold and contain Life, but the quality of Life doesn't change. Sometimes, by concentrating only on the cup, we fail to enjoy the coffee in it."

So please, don't let the cups drive you...enjoy the coffee instead.

Elevator Speech

Because of a grant to prevent underage drinking in Pierre and Fort Pierre, the Parents Matter Coalition was established. As part of that effort, Parents Matter coordinated a program that uses community volunteers to help reduce access to alcohol.

- We continue to address underage drinking by educating members of the community on the health and negative consequences associated with underage alcohol use:
- By marketing a plan and campaign promoting healthy alternatives
- By addressing outdated policies and laws to help reduce youth access to alcohol.

Parents Matter hopes that by using a multi-faceted, community approach, underage drinking will continue to decrease and Pierre and Ft. Pierre will be safer and healthier communities for everyone.

Data:

Youth reporting **not having used alcohol or other drugs** went from 76% in 2008 to 83% in 2012. (Statistically, that is a big change.)

- Parent disapproval rates also increased from 89% in 2008 to 92% in 2012
- 80% of youth also reported that the number one reason they choose not to drink is because of their parents. (Proof that youth do listen and care what their parents are saying).

Parents Matter Coalition of Pierre/Fort Pierre welcomes community support! The coalition welcomes new members to join in reducing underage drinking in the communities. Visit the website www.parentsmattercsd.com to see community report cards and find out how you can become part of Parents Matter Coalition's team.

With an emphasis on *prevention* Parents Matter is making a difference—We're \$aving Live\$ and Making \$en\$e:

- 83% of our youth choose not to use alcohol or drugs. (Pride Survey, 2012)
- 80% of youth choose not to use alcohol because of their parents' influence. (Talk: They Hear You, July 2013)
